REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Westminster Elementary School continues to make progress toward the investment in the academic success of its students. The faculty and staff are committed to providing a positive culture for learning where we believe all children can learn. Our mission to develop literate, responsible, productive, lifelong learners is truly a statement of purpose. The significance of students setting personal academic goals has shown to be of vast importance as they continue to make gains in their knowledge base and grow to love learning.

A half-time literacy coach and full-time math coach were added to our staff and have proved to be very beneficial to teachers and students. With the leadership of these coaches, teachers engaged in professional development designed to expand their working knowledge of best practices in order to more effectively reach all learners. Additional emphasis was placed on individual student social, emotional, and academic needs, through the use of differentiated instruction. Westminster Elementary School will continue to use these coaches as valuable resources.

Data studies continue to prove beneficial for the school. Teachers are able to study data to help determine instructional needs. Data analysis days are provided for elementary teachers so they can begin the process of data analysis for MAP and PACT which in turn drives their instruction to ensure students receive what they need to make prominent gains academically. Primary teachers are allowed assessment days to provide them invaluable time to assess students individually to gain the necessary insight for instruction of their students. Both of these forms of data study prove very beneficial in the planning of purposeful instruction.

The "Sounds in Motion" program was introduced in kindergarten classrooms. This exciting and fun program pairs speech sounds with gross motor movements and incorporates movements into lessons that focus on listening, phonological awareness, and other pre-literacy skills. "Sounds in Motion" targets many areas essential to reading and writing and provides teachers with a great tool to engage students in their learning.

Teachers will continue to enhance curriculum mapping and differentiated instruction, as well as higher order thinking skills, for the 2008 – 2009 school year. We will continue to support early intervention and have planned for an early interventionist to help in this initiative. This support person will provide needed interventions for kindergarten and first grade students and will also help continue the Positive Behavior Intervention System (PBIS) for students. Through the use of the PBIS, students have become more responsible and responsive to positive redirection. We have fewer discipline referrals and interruptions in the classrooms. Students want to do well and it shows through their daily work habits and academic gains. We are all very committed to the education of our students. Through this commitment we are confident that we can reach our goals successfully.
